PUBLICATION INFORMATION

CERCETĂRI MARINE/RECHERCHES MARINES is an open access international journal which publishes papers on all aspects of marine and coastal environment, preferably but not only from the Black Sea basin area. Minimum two international referees review each manuscript. International Editorial Board members advice the editors on the selection of supplementary referees.

The types of papers that can be submitted for consideration by the International Editorial Board are:

a) ORIGINAL SCIENTIFIC PAPERS:

Should report only original results. They are limited to 20 printed pages (80,000 characters). The publication of larger articles is subjected to the Editor's agreement.

b) REVIEW ARTICLES:

They should be invited by the Editor. They should be concise / up to 25 printed pages (100,000 characters), critical and creative. They should seek to stimulate topical debate and new research initiatives. Prospective authors are asked to send an extended abstract (two pages maximum) of their paper to the Editor by e-mail. The abstract should outline why the review is topical, its main points and objectives, and how it will stimulate debate and research. When the proposal has been accepted by the Reviews Editor, he will invite the author to submit a manuscript within an agreed time limit and following the general guidelines for submission of standard papers.

c) SHORT COMMUNICATIONS:

Short communications, which do not occupy more than four printed pages (16,000 characters) are short papers that present original and significant material for rapid dissemination and addressing new ideas, controversial opinions, "negative" results and much more.

d) CONFERENCE PAPERS:

Conference papers should report only original results which were presented on the conferences and symposia. They should be submitted as like as original research papers.

MISCELLANEOUS:

e) Anniversaries, evocations, personalities, *varia*, *in memoriam*, editorial signal, reviews. They are limited to 10 printed pages (40,000 characters). The publication of larger articles is subjected to the Editor's agreement.

Acceptance of papers: Papers will normally be critically reviewed by two experts in relevant disciplines and evaluated for publication by the Editor; however, the Editor may return to authors without review any manuscripts deemed to be inadequate quality or inappropriate for the journal.

CONTENTS

Assessment of the Geomorphological and Sedimentological Changes in Mamaia Sector after the Implementation of the Coastal Protection Measures <i>Dragoș Marin, Silică Petrișoia, Alina Spînu, Dănuț Diaconeasa, Răzvan Mateescu, Emil Vespremeanu[†]</i>	6
Monitoring of Coastal Evolution in Constanta and Eforie North Areas <i>Liviu Bădoiu, Cristina Șeuleanu, Florentina Caloianu, Nicușor Buzgaru</i>	17
Extreme Waves Conditions at the Entrance of Constanta Port <i>Elena Vlăsceanu, Ichinur Omer, Dragoș Niculescu, Dragoș Marin, Răzvan Mateescu, Liliana Rusu</i>	36
Chemical status evaluation of the Romanian Black Sea marine environment based on benthic organisms' contamination <i>Nicoleta Damir, Diana Danilov, Andra Oros, Luminița Lazăr, Valentina Coatu</i>	52
Long Term Quantitative Variation of the Main Opportunistic Macroalgae Species Along the Romanian Black Sea Coast <i>Oana Marin</i>	78
Culture Techniques for <i>Acartia clausi</i> from the Romanian Black Sea coastal waters <i>George-Emanuel Harcotă, Elena Bișinicu, Florin Timofte, Aurelia Țoțoiu, Cristina Tabarcea, Geta Rîșnoveanu</i>	91
Turbot Survivability, Catches and Gillnet-Caused Injuries. Scientific Support for the Exemption from the Landing Obligation in EU Black Sea Countries <i>Victor Niță, Magda Nenciu, Cristian Danilov, George Țiganov, Mădălina Galațchi, Cătălin Păun, Dragoș Diaconu, Daniel Grigoraș</i>	106
Screening the Implementation of HACCP Principles in the Romanian Seafood Industry. Case Studies and Optimisation Scenarios <i>Magda Nenciu, John A. Theodorou, Mihaela Geicu-Cristea, Victor Niță</i>	123
Assuring the long-term sustainability of the Surveying & MARiTime internet of thingS EducAtion (SMARTSEA) Project <i>Ana C. Serafia, Mariana Golumbeanu</i>	148
National Research and Development Core Program - Continuity Support for Marine Research <i>Vasile Pătrașcu</i>	159
<i>In memoriam</i> Constantin Maxim <i>Viorel Dumitrescu</i>	180
<i>In memoriam</i> – Marius Iliescu <i>Tania Zaharia, Maria Moldoveanu</i>	184
