PUBLICATION INFORMATION

CERCETĂRI MARINE - RECHERCHES MARINES is an open access scientific journal, in accordance with the BOAI definition of open access.

The authors are responsible for the scientific content of their articles published in the present volume.

A catalog record of this book is available from the Romanian National Library.

The types of papers that can be submitted for consideration by the International Editorial Board are:

a) ORIGINAL SCIENTIFIC PAPERS:

Should report only original results. They are limited to 20 printed pages (80,000 characters). The publication of larger articles is subject to the Editor's agreement.

b) REVIEW ARTICLES:

They should be invited by the Editor. They should be concise / up to 25 printed pages (100,000 characters), critical and creative. They should seek to stimulate topical debate and new research initiatives. Prospective authors are asked to send an extended abstract (two pages maximum) of their paper to the Editor by e-mail. The abstract should outline why the review is topical, its main points and objectives, and how it will stimulate debate and research. When the proposal has been accepted by the Reviews Editor, he will invite the author to submit a manuscript within an agreed time limit and following the general guidelines for submission of standard papers.

c) SHORT COMMUNICATIONS:

Short communications, which do not occupy more than four printed pages (16,000 characters) are short papers that present original and significant material for rapid dissemination and addressing new ideas, controversial opinions, "negative" results and much more.

d) CONFERENCE PAPERS:

Conference papers should report only original results which were presented at the conferences and symposia. They should be submitted as original research papers.

MISCELLANEOUS:

e) Anniversaries, evocations, personalities, *varia*, *in memoriam*, editorial signal, reviews. They are limited to 10 printed pages (40,000 characters). The publication of larger articles is subject to the Editor's agreement.

Acceptance of papers: Papers will normally be critically reviewed by two experts in relevant disciplines and evaluated for publication by the Editor; however, the Editor may return to authors without review any manuscripts deemed to be inadequate quality or inappropriate for the journal.
